About Me

Hello there! My name is Amanuel and I enjoy learning, problem-solving and creating software products that are efficient, visually appealing, accessible, and user-friendly.

EXPERIENCE

Veho, Vantaa - *Mobile Developer*

10/2020- 12/2020 - [veho](#)

Description:

As part of the development team, I helped build an electric vehicle charger management solution. Veho was the company that commissioned this project. The company needed a way to manage the charging queue of electric/hybrid vehicles at the workplace, and our goal was to create a software that helped resolve that issue. While working on the project I learned to utilize tools such as React Native, Firebase, Formik, Yup, and i18n-js.

WeDance - *Frontend Developer*

04/2021- 06/2022 - [weDance](#) - [app](#)

Description:

Worked on a platform to support and spread dancing around the world where my role at the company was as an engineer in Agile Team of Product Domain, and a Scrum Master in Agile Team of Product Domain. While working on this project I learned to utilize tools such as, Nuxt, Tailwind, Typescript, Nuxt-i18n, Date-fns and Crowdin.
